## 5610V

### LED 1-Way Security & Remote Start Digital System

**Pre-cool your car in summer or pre-heat in winter. Vipers' 5610V is a digital 1-way security and remote start system that is designed specifically for today's modern vehicles. This system allows control of your factory remote immobiliser using the bundled Viper remotes, Vipers' Smart Start application, or via your car's standard remote key fob, giving you remote start from a 3x press of the remote lock button.**

#### Vipers' Digital System Advantages:

- Integrates to the immobilisation and central locking systems of your vehicle
- One module to locate & wire, not two as with conventional systems
- Much simpler installation, saving you time and money; even simpler with the range of Directed T-Harnesses
- Main system & interface programming is consolidated
- Plug & Play connection to Viper SmartStart modules
- 3x press remote start integrates with factory key remotes

- Includes Two 5-Button 1-Way LED Remotes
- SST technology for up to 800M range
- Full security & remote start functionality
- 3x Lock Remote Start from factory key fob
- 514LN Revenger® 6-tone Mini-Neo Siren
- Stinger® DoubleGuard® Shock Sensor
- Customisable features with Directechs
- Manual trans and pit stop mode
- Doors, boot and bonnet protection
- Sensor input for additional sensor protection
- Includes remotes and control centre / antenna
- Includes bonnet pin, relay connector, LED/ Valet Combo Switch
- Web configurable
- Viper SmartStart Ready\*
- External Temperature sensor probe optional (ACC-TEMP101)
- Lifetime Manufacturer's Warranty. Conditions Apply
- System upgrades available. Please see our Top 10 Upgrades

COMPATIBLE
